

EMMS - Technical Specification – 21 April 2026

1.01~~1.00~~ February 2026

Production: Tuesday 21 April~~Wednesday~~
~~28 January~~ 2026 (TBC)

No Pre-Production

Important notice

Purpose & audience

This document describes the technical changes required to participant's systems for the EMMS - Technical Specification – 28 January 2026 (Release). The Australian Energy Market Operator (AEMO) provides this information as a service targeting business analysts and IT staff in participant organisations. It provides guidance about the changes to their market systems under the National Electricity Rules (Rules), as at the date of publication.

How to use this document

- If you have questions about the business aspects of these changes, please see Consultations on AEMO's website.
- The references listed throughout this document are primary resources and take precedence over this document.
- Unless otherwise stated, you can find resources mentioned in this guide on AEMO's website.
- **Text in this format** is a link to related information. Some links require access to MarketNet.
- **Text in this format**, indicates a reference to a document on AEMO's website.
- **Text in this format** is an action to perform in the Markets Portal.
- This document is written in plain language for easy reading. Where there is a discrepancy between the Rules and information or a term in this document, the Rules take precedence.
- Glossary Terms are capitalised and have the meanings listed against them in the Glossary.
- Rules Terms have the meaning listed against them in the [National Electricity Rules](#) (Rules).

Privacy and legal notices

The material in this publication may be used in accordance with the [privacy and legal notices](#) on AEMO's website.

1 Introduction

1.1 Audience

AEMO provides this information as a service targeting business analysts and IT staff in Registered Participant companies.

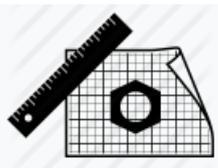

The primary audience for this technical specification is:

- Participants using NEMWeb

1.2 Objective

The EMMS - Technical Specification – ~~21 April~~~~28 January~~ 2026 describes the projects planned by AEMO from a participant perspective and includes any system related changes for participants.

1.3 Status

Version	Status
1.01	Updated version introducing a new patch to pdrBatch and NEMWeb transition to HTTPS.
1.00	Updated version based on the updated requirements and design. We expect changes to the design while development and testing are in progress.
0.01	 <p>Initial Draft for review.</p> <p>Presents the EMMS - Technical Specification – 21 April28 January 2026 evolving design.</p> <p>Please send feedback to Contact Us. In the Details of your enquiry section, mention the EAS Knowledge Management team as the Resolver group.</p>

1.4 Release dates

Scheduled for implementation in:

- Pre-production: No pre-production

- Production: ~~Tuesday 21 April~~ ~~Wednesday 28 January~~ 2026 (TBC)

1.5 Projects and enhancements

Changes and enhancements for this Release include:

No.	Functionality	Change	Affected interface	Reference
1	pdrBatcherSite	pdrBatcherSite upgrades	NEMwebData Interchange	pdrBatcherHome https://www.aemo.com.au/energy-systems/electricity/national-electricity-market-nem/data-nem/market-data-nemweb
2	NEMweb Public website	URL change Legacy reports	NEMweb	https://www.aemo.com.au/energy-systems/electricity/national-electricity-market-nem/data-nem/market-data-nemweb
3	NEMweb Public website	Platform migration	NEMweb	https://www.aemo.com.au/energy-systems/electricity/national-electricity-market-nem/data-nem/market-data-nemweb
4	NEMweb Public website	Report management framework	NEMweb	https://www.aemo.com.au/energy-systems/electricity/national-electricity-market-nem/data-nem/market-data-nemweb

1.6 Rule and procedure changes

The following rules and procedures take precedence over technical specifications and guides.

Title
N/A

1.7 Related technical specifications

Title	Description
N/A	N/A

1.8 Related ~~documents~~ documents

Once published, these resources take precedence over this technical specification

Title	Description	Status
Data Interchange	Information on pdrBatcher	N/A
Online Help	N/A	N/A

1.9 Approval to change

There is no approval or agreement to change required from participant change controllers for this release. ~~All changes in this release are on AEMO's side.~~

1.10 Market systems user group meetings

The Market Systems User Group (MSUG) is an industry user group established to discuss NEM wholesale and retail IT systems releases. Its purpose is to facilitate the continuing improvement of AEMO's IT systems by seeking feedback and collaboration from participants.

MSUG meetings are open to all interested parties, with invitations sent to all included on the distribution list. If you have a technical question for a project and want to attend the MSUG ask your company's support team to include your email address in their **AEMO Help Desk Bulletin (CRM)** distribution list.

1.11 Version numbers

AEMO releases new versions of this document as the technical requirements are streamlined.

Incremental version numbers such as 1.01, 2.01 and so on mean there is a minor change to the technical specification.

Major version numbers such as 1.00, 2.00 means there are substantial changes to the technical specification. Participants must carefully review these changes, detailed below.

1.12 Changes in this version

- Updates to release dates [in Proposed Timeline](#)

- URL change on Tuesday 7 April 2026
- New pdrBatcher patch available on Monday 26 February
- ~~Updates to NEMweb ~~NEMWeb~~ site access~~
- ~~Updates to NEMWeb site banner~~

2 Proposed Timeline

The dates for the Market System User Group Meetings (MSUG) are tentative. We will provide an invitation one week prior to the meeting.

Milestone	Date	Description
Approval required	N/A	Final date for participant approval of this Release
Revised Technical Technical Specification	Thursday 19 February 2026 8 January 2025	<p>AEMO releases new versions of this document as the technical requirements are streamlined. During the project this document is the source of truth</p> <p>From the production release, the technical specification becomes final and the related documents become the source of truth</p> <p>Technical Specification Portal</p>
Related Documents publication	Tuesday 21 April 2026 (TBC) N/A	Release of guides and resources mentioned in Related on page 3
Next MSUG <u>meeting</u>	Thursday 19 February 2026 Wednesday 17 December 2025	<p>Market Systems User Group Meeting (MSUG) to review the technical specification and ask AEMO technical SMEs questions</p> <p>This date is tentative. The Knowledge Management Team provides the invitation prior to the meeting</p>
Pre-production refresh	Monday 13 April 2026 – Friday 17 April 2026	Refresh of the pre-production system with data refreshed from the production system. An outage of up to five days can occur to the pre-production environment during this period. Participant access is not restricted, however, AEMO do not guarantee the pre-production data content or system availability. During the refresh, access to other AEMO systems such as AWEFS, EMMS, OPDMS, and STTM may be intermittently affected

Proposed Timeline

Milestone	Date	Description
Pre-production implementation	N/A	AEMO implements components of the Release to pre-production for participant testing AEMO has full access to the system during this period Participant access is not restricted; however, the data content or system availability is not guaranteed
Pre-production available	N/A N/A	Testing period begins for participants
Market Trials <u>Participant Testing</u>	N/A No Market Trials	Unstructured participant AEMO coordinated testing in the pre-production environment with all participants
Participant Testing <u>Production implementation</u>	Wednesday 14 April 2026 N/A	AEMO implements Unstructured participant testing in the release to pre- production environment
<u>Production systems available</u> implementation	Tuesday 21 April 2026 (TBC) Wednesday 21 January 2026	Production systems available to participants AEMO implements the release to production
<u>Decommissioning HTTP support</u> Production systems available	Tuesday 7 April 2026 Wednesday 28 January 2026 (TBC)	See <u>Decommissioning HTTP support</u> Production systems available to participants
<u>pdrBatcher v7.6.1 patch</u> Legacy report deprecation notice	Thursday 26 February 2026 Wednesday 28 January 2026 (TBC)	See <u>Updated pdrBatcher</u> Legacy report framework (post-production)
<u>Report Management Framework phase 1</u> Legacy report deprecation date	Thursday 19 February 2026 TBC	Discontinuation notice Legacy report framework (post-production)
<u>Report Management Framework phase 2</u> Legacy report retirement	TBC	Legacy access period Legacy report framework (post-production)
<u>Report Management Framework phase 3</u>	TBC	Report retirement

3 Participant Impact

Key impacts for Participants~~stakeholders~~:

<u>Milestone</u>	<u>Details</u>	<u>Description</u>
<u>Decommissioning HTTP</u>	<p><u>Switch all links, scripts and tools to HTTPS</u></p> <p><u>Continuing to use HTTP blocks connections and prevents downloads</u></p>	<p><u>Final date for participant approval of this Release</u></p>
<u>pdrBatcher</u>	<p><u>Install the updated pdrBatcher patch introducing case sensitive URLs</u></p>	<p><u>AEMO releases new versions of this document as the technical requirements are streamlined. During the project this document is the source of truth</u></p> <p><u>From the production release, the technical specification becomes final and the related documents become the source of truth</u></p> <p><u>Technical Specification Portal</u></p>
<u>Manage discontinued reports</u>	<p><u>Review the list of discontinued reports and replacement reports published. Update any data feeds, scripts, or tools to use the replacement reports where available. See Report Management Framework.</u></p>	<p><u>Phase 1 - Thursday 19 February 2026</u></p> <p><u>Phase 2 – TBC</u></p> <p><u>Phase 3 - TBC</u></p>

~~3.1~~ **4 NEMWeb Platform Migration** ~~site~~

4.1 Goal

We are migrating the platform supporting NEMWeb on Tuesday 21 April 2026 (TBC). While we aim to make these updates seamlessly, you ~~may~~ notice a brief service interruption on the day of the migration.

4.2 URL change

To improve platform security, all existing connections using HTTP must switch to HTTPS. See Decommissioning HTTP support.

4.3 Case sensitive URLs

- The NEMWeb platform migration introduces case-sensitive URLs for accessing data. ~~to NEMWeb on Wednesday 28 January 2026 (TBC)~~. We are not changing any report names or cases but enforcing case sensitivity. Update any tools or scripts that do not preserve file name case, so they keep working after the ~~aim to make this~~ transition. A patch for pdrBatcher v7.6.1 supporting case-sensitive URLs is available on Thursday 26 February 2026. See Updated pdrBatcher. ~~as smooth as possible and keep you informed of any updates.~~

~~3.2~~ **Legacy report framework**

- ~~A three-phased process begins after Wednesday 28 January 2026 (TBC) to manage outdated reports on NEMWeb. You may need to update URLs of reports being archived. For details, see Legacy report framework (post-production).~~
- ~~We continue to provide updates in future releases of this technical specification.~~
- ~~If you have any feedback regarding the legacy report framework, submit it using the feedback form.~~

NEMWeb

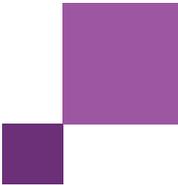

4

4.11.1 ~~Goal~~

~~We are migrating the platform supporting NEMWeb.~~

4.24.4 High-level changes

Function	Description	Reference
<u>pdrBatcher</u>	<u>New patch to support case-sensitivity</u>	<u>pdrBatcherHome</u>
<u>NEMWeb public website</u>	<u>URL change from HTTP to HTTPS</u> NEMWeb site updates	https://www.aemo.com.au/energy-systems/electricity/national-electricity-market-nem/data-nem/market-data-nemweb
<u>Report management framework</u>	<u>Discontinuing outdated and superseded reports from NEMWeb</u>	https://www.aemo.com.au/energy-systems/electricity/national-electricity-market-nem/data-nem/market-data-nemweb

5 Decommissioning HTTP support

To improve platform security, NEMWeb switches to HTTPS on Tuesday 7 April 2026. All existing connections using HTTP must switch to HTTPS.

<u>Existing URL</u>	<u>New URL</u>
http://nemweb.com.au/Reports	https://nemweb.com.au/Reports
http://nemweb.com.au/Reports/Current/Billing/	https://nemweb.com.au/Reports/Current/Billing/

5.1 What you need to do

Switch all links to HTTPS by Tuesday 7 April 2026. If any scripts, tools, or bookmarks still use http:// change them to https:// so they continue to work when HTTP is retired.

5.2 Impact if you do not change

If you continue using HTTP after Tuesday 7 April 2026, your requests will block and downloads fail.

6 Updated pdrBatcher

A patch for pdrBatcher v7.6.1 supporting case-sensitive ULRs is available on Thursday 26 February 2026. Apply this patch to keep automated downloads working during and after the transition.

6.1 What you need to do

- If you use pdrBatcher v7.6.1 to download from NEMWeb, apply the new patch when it is published on Thursday 26 February 2026. AEMO sends a notification email once the patch is available.
- If you are using an earlier version of pdrBatcher, you must:
 - Upgrade to pdrBatcher v7.6.1
 - Apply the pdrBatcher v7.6.1.x patch published on Thursday 26 February 2026. More details of the patch version and implementation instructions are published on the day.

5 — Update any other tools or scripts that do not preserve the exact case of NEMWeb site updates

5.1 — Site access

~~We are migrating the platform supporting NEMWeb.~~

Key points for stakeholders:

- ~~• If you access current reports, the NEMWeb site continues to operate at <https://nemweb.com.au/Reports/Current/>. You do not need to update any URLs.~~
- ~~• If you use NEMWeb interactively in your browser, you see no change to the browser interface. You continue to access and download reports as usual.~~
- ~~• While we aim to make these updates seamlessly, you may notice a brief service interruption to NEMWeb on Wednesday 28 January 2026 (TBC). If you experience any issues, contact the **Support Hub** for assistance.~~
- Legacy report framework (post-NEMWeb filenames, so they fetch files using the correct filename case after the platform transition.

Update your configurations to use HTTPS before upgrading your pdrBatcher application.

6.2 — Impact if you do not change

Older pdrBatcher versions will not reliably download files after the NEMWeb platform transition.

Note: This patch is only for pdrBatcher v7.6.1.

5.2 7 Report Management Framework (post-production)

We introduce a new three-phase framework to identify~~manage outdated~~ and discontinue:

- Superseded reports on NEMWeb. These are reports replaced by another, preferred report.
- Outdated~~superseded~~ reports on NEMWeb. These are reports not maintained in line with the latest market rules or where the original need for the report does not exist.

This process is effective after the production date Tuesday 21 April 2026 (TBC). ~~go-live date Wednesday 28 January 2026 (TBC). Current report URLs and processes remain unchanged on Wednesday 28 January 2026 (TBC).~~

7.1 Phase 1 – Discontinuation notice

~~We~~This section gives you advance notice about upcoming changes, so you can prepare if needed. For more details on the release dates, see [Release Information](#).

5.2.1 Three-phase legacy process:

~~Deprecation notice: In a future release of this technical specification, we~~ publish the reports planned for discontinuation, together with ~~we are phasing out and provide details of~~ their replacement reports (where applicable). See [Discontinued reports](#). Review the information ~~content. You should follow the advice and update your systems, scripts and make any necessary changes before the deprecation date to keep your NEMWeb data feeds to point to the preferred replacement report.~~

7.2 Phase 2 – Legacy access period

~~1.~~ After the NEMWeb platform migration production date, we will publish the discontinued report relocation date. On ~~working. We allow reasonable time between this date: notice and the next step, so you have time to act.~~

- The [Discontinued reports](#) are moved ~~Deprecation date: At the deprecation date, we move the report~~ from its current NEMWeb location to a legacy subfolder ~~under~~ <https://nemweb.com.au/Reports/>.
- Access to the report through the original URL is no longer available. However, you can continue to access the discontinued reports from the legacy subfolder location.

~~If you **have not** haven't made the **recommended** changes in **phase** step 1, **any** your data feeds **still pointing to the original URL will** may stop working.~~

~~2. A six-month You can update your processes to point to the legacy access period applies from location and continue using the report relocation date. During during this **six-month sunset period**, ~~You must~~ you can continue to access complete all changes, in the deprecation advice before the sunset period ends.~~

~~3. **Retirement:** Legacy reports are discontinued reports and removed from NEMWeb after the legacy subfolder location. We sunset period.~~

~~Key points for stakeholders:~~

- ~~• After the go-live date, we publish information of reports being phased out and provide a mapping of the original URLs to the legacy URLs details of their replacements. This is published in a future release of this technical specification.~~

7.3 Phase 3 – Report retirement

At the end of the legacy access period, **Discontinued reports** are permanently removed from NEMWeb. We will send regular reminder notices during the legacy access period to support participants in completing their transition before removal.

8 Discontinued reports

<u>Report</u>	<u>Comment</u>
<u>Adjusted Prices Reports</u>	<u>Superseded by DISPATCHIS PRICE REVISIONS</u>
<u>Bidmove Summary</u>	<u>Superseded by Bidmove Complete</u>
<u>Billing</u>	<u>Outdated</u>
<u>Causer Pays</u>	<u>Superseded by FPP</u>
<u>Causer Pays Elements</u>	<u>Superseded by FPP</u>
<u>Causer Pays Rslcpf</u>	<u>Superseded by FPP</u>
<u>Causer Pays Scada</u>	<u>Superseded by FPP</u>
<u>CSC CSP ConstraintList</u>	<u>Outdated</u>
<u>CSC CSP Settlements</u>	<u>Outdated</u>
<u>Daily Reports</u>	<u>Superseded by FPP</u>
<u>Dispatch Reports</u>	<u>Superseded by NEXT DAY reports</u>
<u>DWGM</u>	<u>Outdated</u>
<u>Gas Supply Guarantee</u>	<u>Outdated</u>
<u>Next Day Offer Energy</u>	<u>Superseded by Next Day Offer Energy SPARSE</u>
<u>Next Day Offer FCAS</u>	<u>Superseded by Next Day Offer FCAS SPARSE</u>
<u>Next Day Trading</u>	<u>Superseded by Next Day Dispatch</u>
<u>PasaSnap</u>	<u>Outdated</u>
<u>Predispatch Reports</u>	<u>Outdated</u>
<u>PublishedModelDataAccess</u>	<u>Outdated</u>
<u>Reserve Contract Recovery</u>	<u>Outdated</u>
<u>SupplyDemand</u>	<u>Outdated</u>
<u>Weekly Bulletin</u>	<u>Outdated</u>
<u>Yesterdays Bids Reports</u>	<u>Superseded by Next Day Offer Energy SPARSE</u>
<u>Yesterdays MNSPBids Reports</u>	<u>Superseded by Next Day Offer Energy SPARSE</u>

- ~~Reports remain in their current location until the deprecation date. You have time to make any necessary changes before we move them to a legacy folder location.~~
- ~~On the deprecation date, we relocate these reports to a legacy subfolder under <https://nemweb.com.au/Reports/>. Note, this is a URL change only. We provide a mapping of old to new URL in a future release of this technical specification. You can update your processes to point to the legacy folder and continue using the report during the sunset period.~~
- ~~The legacy folder remains available for a six month sunset period. After this period, we remove legacy reports from NEMWeb. For more details, see **Release Information**.~~
- ~~All changes are communicated through this technical specification and displayed on NEMWeb using site banners. For more details, see **Site banners**.~~
- ~~If you have any feedback regarding the legacy report framework, submit it using the **feedback form**.~~

5.3 9 Site banners

A banner is displayed on the NEMWeb homepage to notify you participants of upcoming changes or outages. This banner provides a summary of the update, a link to this technical specification and directs you to the Support Hub for assistance.

The screenshot shows the AEMO website header with navigation links: Energy systems, Initiatives, Consultations, Library, Learn, Newsroom, About, and a search icon. Below the header is a purple navigation bar with links: AEMO, ENERGY SYSTEMS, ELECTRICITY, NATIONAL ELECTRICITY MARKET (NEM), DATA (NEM), and NEMWEB DATA.

The main content area features a red-bordered banner titled "NEMWeb updates". The text inside the banner reads: "We are making updates to the NEMWeb site. You can continue to [access current reports](#) with no changes to URLs. The browser interface and directory listings remain unchanged. For more information and to keep up to date with any changes we are making to the site, please refer to [EMMS - Technical Specification – 9 December 2025](#). While we aim to make these updates seamlessly, you may experience a brief service interruption to NEMWeb in late January 2026." Below the text are two bullet points: "• If you need assistance, contact the [Support Hub](#)" and "• To receive notifications of updated releases of the [Technical Specification](#), refer to [Support Hub Bulletin](#)".

Below the banner is a navigation menu with dropdown arrows for: Introduction, Bids, Data Model, Demand and Forecasts, Dispatch, FPP, Gas Supply Hub, NEMDE, Network, and Other.

To the right of the menu is a section titled "MARKET DATA NEMWEB" with a photograph of solar panels and wind turbines. Below the image, the text states: "AEMO collects and collates a range of data relating to the National Electricity Market (NEM). One of AEMO's goals is to promote greater
